DETAILED ACTION

CONTINUED EXAMINATION UNDER 37 CFR 1.114 AFTER FINAL REJECTION

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on April 11, 2003 has been entered and pending claims are claims 14-20, 27, and 30-57.

Election of Species

2. After reviewing the amendment filed on April 11, 2003 and newly added claims 44-57, the examiner considers that this application contains claims directed to the following patentably distinct species of the claimed invention:

- (1) said recombination sites are lox sites or their mutants or derivatives thereof.
(claims 34, 35, 40-43, 47, and 52-55)
- (2) said recombination sites are att sites or their mutants or derivatives thereof (claims 34-39 and 47-51)
- (3) said recombination sites are FRT or their mutants or derivatives thereof (claims 34, 35, and 47)
- (4) said recombination sites are recombination sites recognized by a resolvase or their mutants or derivatives thereof (claims 34, 35, and 47)

Art Unit: 1634

- (5) said recombination sites are bacterial transposable elements or their mutants or derivatives thereof (claims 34, 35, and 47)
- (6) said recombination sites are integrating viruses or their mutants or derivatives thereof (claims 34, 35, and 47)
- (7) said recombination sites are IS elements or their mutants or derivatives thereof (claims 34, 35, and 47)
- (8) said recombination sites are P elements of *Drosophila* or their mutants or derivatives thereof (claims 34, 35, and 47)
- (9) said recombination sites are bacterial virulence factors or their mutants or derivatives thereof (claims 34, 35, and 47)
- (10) said recombination sites are mobile genetic elements for a eukaryotic organism or their mutants or derivatives thereof (claims 34, 35, and 47)

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, generic claims 14-20, 27, 30-33, 44-46, 56, and 57.

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations

Art Unit: 1634

of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(I).

3. Papers related to this application may be submitted to Group 1600 by facsimile transmission. Papers should be faxed to Group 1600 via the PTO Fax Center located in Crystal Mall 1.
